# Welcome

*St Michael's - Bringing each student to the fullness of life through education*

Choosing a new school for your child is a very important decision and as parents you will believe that your child deserves the very best education. At St Michael's we share your belief. We recognise that there are no limits to a child's potential, hence our aim is simple; to facilitate academic and personal success in a rigorous learning community and in a culture which embraces spiritual values of serving others; tolerance, prayer and forgiveness. It is our belief therefore that students grow into mature and responsible adults through:

- Learning together in a Catholic community
- Aspiring to academic excellence and success
- Acquiring confidence, self-esteem and fulfilment of their individual talent
- Developing a love of learning, a love of Christ, and a love of each other

Our team of well qualified, dedicated staff work creatively and professionally to ensure that all students flourish and achieve our goal of academic excellence. We have a progressive approach to developing and delivering our curriculum while we tailor our learning environment to meet the needs of students; providing extra challenge for those who are intellectually gifted and offering learning support for those in need. St Michael's new buildings facilitate 21st century learning and have excellent facilities and resources which benefit the whole community. When a new student joins us, we take the time to build a genuine partnership between the family and school, since we believe that partnership with parents is vital to every child's future success.

I hope you enjoy reading through our prospectus which gives a flavour of the broad and balanced experiences at St Michael's, but more importantly I would like to invite you to our virtual Open Day Events to sample the culture which makes St Michael's Catholic College unique.
