Summer Term 1 Re Homework Project
The Dignity Tree of Life Project

The goal is for the family to create a **3D TREE** where each "leaf" or "fruit" represents a unique quality of a family member or a way they show respect for the **dignity** of others.

1. Gather Household Materials

- **The Trunk**: An empty cereal box, a kitchen roll tube or a small sturdy branch from the garden.
- **The Leaves**: Scraps of paper, old magazines or even colourful packaging from the recycling bin.
- **The Base**: A small plastic tub, a clean food tin or a piece of cardboard to act as a stand.
- **Tools**: Scissors, glue, tape, and markers or pens.

2. Create the "Foundation"

The family can work together to secure the trunk to the base.
On the base or the trunk, write a foundation scripture verse like **Genesis 1:27** ("God created mankind in his own image") to remind everyone that **"dignity is a gift from God. "**

3. Personalise the Leaves

Each family member contributes leaves to the tree.

- **Qualities**: Write things that makes them special (e.g., "I am a good listener," "I have a kind smile"). *This celebrates their own inherent dignity.*
- **Actions**: **Write ways they treat others with dignity** (e.g., "I help my neighbour," "I share my toys").
- **Creative touch**: Use handprints for leaves to represent the whole family's "hands" working to uphold dignity.

4. The Family Prayer

To finish the project, the family can write a short prayer together on a larger leaf or "fruit" (like a cardboard heart) to hang at the very top.

This prayer could ask for the Holy Spirit's help in seeking new ways to respect and **uphold the dignity of every person**

Please hand in by Friday 15th May, so that we can display them in the hall for everyone to enjoy!
