

Let it shine

In English we will be...

- Studying the book **Miranda the explorer, Leon & the place between** and **Blue John**
- Writing a narrative, poetry, explanation
- Focusing on grammar through discrete weekly grammar lessons

In Science we will be...

- Observing, recording and discussing the movement of the Sun throughout the day
- Explaining where the sun goes at night
- Creating a silhouette
- Making a shadow clock - measure shadows at different times of the day
- Testing what happens to the shadow when the light source / objects are moved closer and further away
- Using simple tests to investigate light

In Art/Music we will be...

- Looking at the work of William Turner
- Creating a William Turner inspired watercolour painting
- Learning to play the recorder

In Geography we will...

- Use an atlas/online mapping tool to locate a place
- Know the difference between a globe and map
- Identify northern/southern hemispheres/poles on a globe
- Use geographical vocabulary relevant to topics: *eg mountain, ocean, pole, continent, hemisphere*

In Design Technology we will...

- Disassemble and explain how a shadow puppet theatre is made
- Create labelled design drawing with annotations
- Cut internal shapes into paper and card
- Join two different materials using glue, tape or staples
- Evaluate the finished product explaining how to make it better next time

Trips, events and visitors...

- Pantomime - Babes in the wood
- Science Museum
